#### Care Instruction:

Wash and clean alloy tray prior to fitment

#### Tools Required:

10mm Spanner

### 1 Assemble the top and bottom light brackets.

### 2 Check spotlight in plate before fitting. If needed, drill out existing hole and apply cold galvanise paint for rustproofing. Locate plate as shown.

## ATLB - Alloy Tray Light Bracket

- 3** Mount the light onto the plate, adjust light as close as possible to the bracket as shown.

- 4** Hook the light bracket assembly over the alloy tray profile.

- 5** Secure the light bracket onto the alloy tray planks.  
Tighten bolt / nut to 3-4Nm.

## ATLB - Alloy Tray Light Bracket

- 6** Repeat steps 1-5 to suit application  
(4 lights shown here)
